RING SIZING GUIDE

CHECK THE SCALE

In order to ensure that your guide is to the right scale when you print it out check the print dialog box. Page Scaling should be set to 'None'.

Once you have printed, double check by measuring the bar opposite.

It must be exactly 2 inches or 50mm long.

MEASURING YOUR RINGS:

Measure one of your existing rings, which is a good fit.

Use the circles below to match up the size.

Match up the inside edge of your ring to the circles, not the outside edge.

The measurement in the circles gives you the diameter of your ring.

Note: If the ring falls between two sizes, order the larger size. Remember we can always size it down for you.

Size F 14.1 mm	Size F½ 14.3 mm	Size G 14.5 mm	Size G½ 14.7 mm	Size H 14.9 mm	Size H½ 15.1 mm														
Size I 15.3 mm	Size J 15.5 mm	Size J½ 15.7 mm	Size K 15.9 mm	Size K½ 16.1 mm	Size L 16.3 mm	Size L½ 16.5 mm	Size M 16.7 mm	Size M½ 16.9 mm	Size N 17.1 mm										
Size N½ 17.3 mm	Size O 17.5 mm	Size O½ 17.7 mm	Size P 17.9 mm	Size P½ 18.1 mm	Size Q 18.3 mm	Size Q½ 18.5 mm	Size R 18.8 mm	Size R½ 19 mm											
Size S 19.2 mm	Size S½ 19.4 mm	Size T 19.6 mm	Size T½ 19.8 mm	Size U 20 mm	Size U½ 20.2 mm	Size V 20.4 mm	Size V½ 20.6 mm												
Size W 20.8 mm	Size W½ 21 mm	Size X 21.2 mm	Size X½ 21.4 mm	Size Y 21.6 mm	Size Z 21.8 mm	Size Z½ 22 mm	Size Z+1 22.4 mm
